

I strongly advocate that the FM translator service currently serving my area not be forced off the air by LPFM. I listen to K-LOVE the majority of the time, and feel like it is one of the few stations that provides family-friendly programming. I don't believe you should allow the new LPFM stations to take priority over those FM stations already in existence. I believe the positive effect that K-LOVE has nationwide is invaluable, and I am concerned that many communities may lose this access if not protected.
